## STRUCTURAL ENGINEERING LAB- CONSULTANCY

## 1. Strain Measurement

Sample types: Beams up to 5.5 m , short and long columns, slabs and other concrete elements.
Charges:

|  | Internal <br> (Rs/sample) | External <br> (Rs/sample) |
| :--- | :---: | :---: |
| Measurement charges per <br> strain gauge | Rs 100 | Rs 150 |
| Additional testing charge <br> (Includes load <br> measurement) | Rs 500 | Rs 750 |

Note: Strain gauge charges to be borne by the client. Support arrangements shall be designed and manufactured by client as per requirement
2. DAQ System based Load Measurement (Computerized)

Sample types: Beams up to 5.5 m , short and long columns, slabs and other concrete elements

|  | Internal <br> (Rs/sample) | External <br> (Rs/sample) |
| :--- | :---: | :---: |
| Testing charge | Rs 500 | Rs 750 |

Note: Support arrangements shall be designed and manufactured by client as per requirement
3. DAQ System based Acceleration Measurement (Computerized)

Sample types: Beams up to 5.5 m , short and long columns, slabs and other concrete elements for impact loading

|  | Internal <br> (Rs/sample) | External <br> (Rs/sample) |
| :--- | :---: | :---: |
| Testing charge | Rs 500 | Rs 750 |

4. Structural Strength Assessment and Structural Design Consultancy

Cost as per structure.

## SURVEYING LAB

## 1. Total Station

a. Topographical survey (Rs.2000/Acre plus mobilisation charges)
b. Land Area
c. Levelling work
d. Building setting out
e. Contour survey

## GEOTECHNICAL ENGINEERING LAB - CONSULTANCY

1. Particle size distribution by sieve analysis and soil classification

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 115 per sieve <br> (minimum 1150) | Rs. 150 per sieve <br> (minimum1500) |

2. Particle size distribution by Hydrometer analysis and soil classification

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 2000 | Rs. 2500 |

3. Field density by Core cutter method

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 2000 | Rs. 2500 |

4. Field density by Sand replacement method

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 2500 | Rs. 3000 |

5. Proctor compaction test

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 4000 | Rs. 5000 |

6. CBR test

| Internal (Rs/sample) | External (Rs/sample) |
| :--- | :---: |
| Rs. 6000 | Rs. 7500 |

## TRANSPORTATION ENGINEERING LAB - CONSULTANCY

- Marshall Stability Testing Machine with extruder and compactor- for bituminous mix design - Rs 15000 per design
- Bitumen Centrifuge Extractor - for bitumen extraction -Rs 2500 per sample
- CBR Testing Machine - for CBR test of subgrade soil - Rs $\mathbf{5 0 0 0}$ per sample
- Universal Penetrometer - for penetration test of bitumen
- Ring \& Ball Apparatus - for softening point of bitumen
- Ductility testing Machine - for ductility of bitumen
- Standard Tar Viscometer - for viscosity of cutback bitumen
- Aggregate Impact Tester - for toughness test of aggregates
- Los Angeles Machine - for hardness test of aggregates
- Compression testing Machine - for crushing strength test of aggregates
- Thickness Gauge \& Length Gauge - for shape test of aggregates
- Flash point: Pensky Marten apparatus- for flash and fire point temperature of bitumen

## MATERIAL TESTING LABORATORY

## 1. UTM (Universal Testing Machine) Tests

Tension Tests On Metals

| Internal (Rs/Sample) | External (Rs/Sample) |
| :--- | :--- |
| Rs. 400 | Rs. 500 |

Bending Test for Wood

| Internal (Rs/Sample) | External (Rs/Sample) |
| :--- | :--- |
| Rs. 400 | Rs. 500 |

## 2. Hardness Tests

Fig 2: Vickers apparatus
fig3: Rockwell cum brinell machine

| Internal (Rs/Sample) | External (Rs/Sample) |
| :--- | :--- |
| Rs. 200 | Rs. 400 |

3. Spring Tests

Modulus of rigidity of springs

| Internal (Rs/Sample) | External ( Rs/Sample) |
| :--- | :--- |
| Rs. 400 | Rs. 500 |

## 4. Impact Strength

Impact strength of Metals

| Internal (Rs/Sample) | External (Rs/Sample) |
| :--- | :--- |
| Rs. 200 | Rs. 400 |

## 5. Non-Destructive Testing - Ultrasonic Pulse Velocity Meter

Make: Proceq Pundit Lab Plus
Sample type: Concrete
Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Construction <br> Site | 1500 per spot | 2000 per spot |
| Lab sample | 400 per sample | 500 per sample |

## 6. Concrete Core Cut And Strength Test

Make: Dongcheng
Sample type: Concrete, Rock
Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| 50 mm core | 1200 per core | 1500 per core |
| 100 mm core | 1200 per core | 1500 per core |

## 7. Concrete Mix Design

Sample Type: Cement Concrete Mix design
Charge: 15000/-

## 8. Strength Test On Brick, Paver Block, Solid Block And Hollow Block,

## Lightweight Blocks, Concrete Cubes

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Brick | 200 per sample | 250 per sample |
| Paver block | 200 per sample | 250 per sample |
| Solid Block | 200 per sample | 250 per sample |
| Hollow <br> Block | 200 per sample | 250 per sample |
| Light Weight <br> block | 200 per sample | 250 per sample |
| Concrete <br> Cubes | 200 per sample | 250 per sample |

9. Water Absorption Test on Brick, Paver Block, Solid Block and Hollow Block,

## Lightweight Blocks

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Brick | 150 per sample | 200 per sample |
| Paver block | 150 per sample | 200 per sample |
| Solid Block | 150 per sample | 200 per sample |
| Hollow <br> Block | 150 per sample | 200 per sample |
| Light Weight <br> block | 150 per sample | 200 per sample |

10. Block Density Test On Brick, Paver Block, Solid Block And Hollow Block,

## Lightweight Blocks

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Brick | 200 per sample | 250 per sample |
| Paver block | 200 per sample | 250 per sample |
| Solid Block | 200 per sample | 250 per sample |
| Hollow <br> Block | 200 per sample | 250 per sample |
| Light Weight <br> block | 200 per sample | 250 per sample |

## 11. Abrasion Test On Concrete And Ceramic Tile

Make: Aimil
Sample type: concrete paver block, and ceramic tile

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Cutting <br> charge | 100 per sample | 100 per sample |
| Testing | 350 per sample | 400 per sample |

12. Physical Properties Of Cement

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| Testing | 1500 Rs per cement | 1800 per cement type |

13. Physical Properties Of Construction Materials

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :---: | :---: | :---: |
| Specific gravity | 400 / aggregate type | 600 / aggregate type |
| Bulk density | 100 / aggregate type | 200 / aggregate type sample |
| Water absorption | 400 / aggregate type | 600 / aggregate type |
| Sieve analysis | 1200 / aggregate type | 1500 / aggregate type |
| Combined gradation | 1200 / aggregate type | 1500 / aggregate type |
| Crushing strength | 500 / aggregate type | 600 / aggregate type |
| Soundness test | 1000 / aggregate sample | 1200 / aggregate sample |

## 14. Steel Reinforcement Tests

Specimen: TMT bars, Mild steel, wires

Charges:

|  | Internal (Rs) | External (Rs/sample) |
| :--- | :---: | :---: |
| U bend test | $400 /$ sample | $500 /$ sample |
| Rebend test | $400 /$ sample | $600 /$ sample |
| Rolling meter <br> test | $50 /$ sample | $100 /$ sample |
| Tensile <br> strength test, <br> elongation | 400 / sample | $500 /$ sample |
| Breaking <br> load test on <br> wires | 200 / sample | $300 /$ sample |
| Tensile <br> strength test <br> on wires | $400 /$ sample | $500 /$ sample |
| Breaking <br> load test on <br> weld joints | $200 /$ sample | $300 /$ sample |
| Breaking <br> load test on <br> bolt <br> connections | $200 /$ sample | $300 /$ sample |

## OTHER CIVIL ENGINEERING SERVICES

## 1. Architectural Design

Architectural design of all type of buildings including estimation, local body approval, structural design, periodical supervision etc.

## 2. Structural Consultancy

Structural design of all type of structures such as bridges, buildings etc. with periodical supervision.
