KERALA'S LARGEST INFRASTRUCTURE FOR ENGINEERING EDUCATION

KERALA'S LARGEST MCA DEPARTMENT WITH NAAC 'A' GRADE

OUR STUDENTS ARE INDUSTRY READY

Cloud Platforms

Enable the students to innovate, build and scale application projects in different public cloud platforms like Google (GCP), Amazon(AWS) and Microsoft(Azure).

Provide the expertized training in web hosting control panels WHM- C panel and Plesk.

Web Hosting

Penetration Testing

Provide the most relevant education in the pen-testing space with Kali Linux Tools, the industry-leading ethical hacking course - Penetration Testing with Kali Linux(PWK).

Enable the students to formulate the feature rich web applications, by learning the frameworks with varied architecture, in Angular, Java Spring, Python Django, PHP(Laravel, Codeigniter, Cake PHP), Ruby, Perl and Asp.net.

Web Application Frameworks

Android app Development

Orient the students with software expertise in Android Studio, Firebase & Flutter, the world's most popular frameworks for mobile applications.

Equip the students to manage the web with Content Management Systems such as Drupal, Joomla and WordPress.

Content Management Systems

Web Server Security

Equip the students to protect assets that can be accessed from a Web Server through open source application firewall and Rule Set such as OWASP and COMODO.

Provide a good solid understanding about a set of rules to optimize both the on-page and off-page ranking factors through techniques such as adwords, adsense and bing webmaster tools.

Search Engine Optimization

WE FOLLOW OUTCOME-BASED EDUCATION (OBE) FRAMEWORK

Data Science

Offers an introductory exposure to data science –an exciting discipline that allows to turn raw data into information, insight and knowledge through Machine Learning, Big Data, R Programming and Ontology Engineering.

Delivers valuable technique on how to build and run applications and services without the hassles of maintaining any servers at all.

Serverless Architecture

In-house Academic Projects

Till date around 500+ students has undergone in-house Academic Project under Startups Valley - AJCE TBI sanctioned by DST Govt. of India.

This model of education which encompasses these technologies as deliverables, has enabled the faculty to guide the students in their in-house projects which has led to excellence in their careers.

Minor Courses & Internships

Big Data
Cloud Computing
Cyber Security
Infrastructure Management Services
Entrepreneurship and innovations

We introduced 5 minor courses with enriched curriculum to build skills in relevant multiple domains apart from university syllabus, which is augmented by practical exposure through internships.

Webinars & Techie-Hangouts

AWSome Day Online Conference
Google cloud OnAir
ORACLE PARTNER Oracle Academy Virtual Student Day

To keep the learning process live and up to date, we facilitate interaction with reputed academic research scholars and industry experts.

Industry Tie-ups & Certifications

REDHAT ACADEMY
AWS EDUCATE
ORACLE ACADEMY

Industry Tie-ups and International certifications enable our students to showcase their competency, commitment for the profession and expertise in the domain.

Academic Enterprise Solutions

AES Academic Enterprise Solutions

An in-house developed campus automation software to embrace innovation in Outcome-Based Education (OBE)implementation, cost effective communication, storage and digital payment transactions.
