Inauguration of one-year technical training courses namely the heavy duty technician training course at Amal Jyothi Eicher Center for Automobile Technology and two-wheeler technician training programme at Yamaha Training School was inaugurated on 1st of November, 2021, 10:00 AM at Chavara Hall. A total of 19 students participated in the programme, with 19 of them enrolling in both.

Prof. Sherin Sam Jose, Head of the Department, Department of Mechanical Engineering Automobile, Amal Jyothi College of Engineering, gave the opening address after a silent prayer. Prof. Sherin greeted the new students who had joined the Amal Jyothi family. He gave an overview of Amal Jyothi College of Engineering and the Department of Mechanical Engineering Automobile. He delivered a summary of the automotive industry's evolution and applauded the students for choosing a career-oriented programme. He also noted the transportation sector's historical significance. He ended his inauguration speech by wishing the youngsters the best of luck.

Dr. Ajithkumar J P, HIC, Dept of MEA and coordinator of the Eicher Centre, then delivered a speech. In his talk, he went over the specifics of the heavy vehicle technician training programme and how the government is taking initiatives in the skill development sector through the various schemes. He has also outlined the norms and regulations that students must adhere to while engaging in the Amal Jyothi community.

Mr. Abin Mathew, coordinator of Yamaha Training School, led the meeting's last session. He provided an overview of the two-wheeler technician training programme and addressed the necessity of job-oriented training as well as the work students need put in to excel and secure potential job placements at the end of the course.

The opening session concluded with a lab visit to various industry-established labs in Amal Jyothi College of Engineering's Department of Mechanical Engineering and Automobile.

Photographs from the inaugural sessions are included.
